VISION

The Bhartiya College of Education envisions to create competencies and train Human Resources in transforming the society, to draw a talented and vocationally inclined youth and to infuse a sense of commitment in aspiring youth and developing an understanding of the teaching learning process at the secondary level among student educators with a community-oriented approach.

Mission

College of Education shall provide seamless access to sustainable and learner-centric quality education, skill up gradation and training to its students by using innovative technologies and methodologies and ensuring convergence of existing systems for quality human resource required to promote the cause of Teacher education for national development.

College is devoted to improving the teaching standards through its commitment to train its students in consonance with global standards of teaching in a congenial environment fashioned by versatile faculty and facilities while enlightening them with values and vision.

From The Principal's Desk...

Ancient Indian education had always given importance to value component. The teacher possessed some beliefs, ideals and values, these influenced the child. In the process of modernization of education, the education system lost its role of ethical values and moral values. But the teacher should make their efforts to reconstruct the education system, in such a way that the moral character of the society is preserved. If the teacher performs his role with dedication, he shall be automatically responsible for the effective implementation of value education. I am glad to know that Bhartiya College of Education has made notable progress over years to emerge as a model role for sister institutions in the region. I would like to compliment to the members of the faculty and students for trailing a blazing path and offer my best wishes for their future success.
